## NOTES

1. As listed on the reverse side, the Math and Science blocks satisfy the minimum requirement of 32 hours of math and basic science.
2. As listed on the reverse side, the Math, Science, and Common Core Blocks satisfy general education requirements.
3. Math 280 or 480 (Math 480 Recommended by Math Department).
4. Area IV, Econ 251 or 252 Suggested
5. Approved Science Electives: a) Every student must satisfactorily complete at least one two-course sequence in a laboratory science, either Physics or Chemistry. Select either Chem 112 or Phys 216/216L for 4 credits  
b) Bio 211G, Phys 217 or other approved science course.
6. Area IV, Psy 201 or Soc 201 Suggested
7. Engineering Electives are to be selected with a departmental adviser. 6 of the 9 credits must be upper division
8. Engineering Science Electives include ME 234, ME 237, EE 201, ME 240, and CE 301. Choose electives with a departmental adviser.

## CAUTIONS

- A student must earn (or transfer) a grade of at least “C” in any math, basic science, pre-engineering, or engineering course that is a prerequisite for another required or elective course before attempting the subsequent course.
- With few exceptions, an engineering student must earn (or transfer) a grade of at least “C” in all required and most elective courses. (See catalog for details).
- Select electives to insure you meet the minimum requirement of 54 credits of upper division classes.
- The stated program meets all engineering, general education, and departmental requirements. Any departure from that plan must meet all minimal General Education, Engineering College, and Industrial Engineering requirements, as well as being approved by the Industrial Engineering Department Head.
